

In Michigan, school buildings have been identified as critical infrastructure, allowing them to benefit from a unique Homeland Security Grant Initiative by the U.S. Department of Homeland Security (DHS).

This workshop will address the issues of school safety in the context of Homeland Security and the possibility of a chemical, biological, radiological, nuclear or explosive (CBRNE) incident, with grant dollars available for risk analysis and hazardous response planning.

**On Thursday, February 5, 2009,
Mary Anderson and Sgt. Bruce Payne will provide an overview of the grant opportunity made available to nonpublic schools in Michigan.
(Every nonpublic school is eligible to receive up to \$650 per building.)
They will provide information on the grant and walk through an Introduction to Incident Command System (ICS) for Schools
(IS-100.SCa for Schools)**

Space is limited so please don't wait to apply.

Schedule:

12:00 - 12:45	Free Lunch at the New Our Savior Lutheran
