

Chronic Mental Illness Outreach: Education is the Key

by Erma Barber

Before a congregation can effectively respond to a need, it must understand the scope of the problem. This requires education and resources. Here are a few to get you started:

Michigan District Mental Illness Manual: To equip professional church workers and congregations with resources in their ministries to and with persons with serious mental illness, The Michigan District – LCMS Committee on Mental Illness has produced a resource manual “Mental Illness Manual.” It can be downloaded at www.michigandistrict.org/pdf/ministries/MentalIllnessManual.pdf. It is also on the District Convention Wrap-up CD being provided to each congregation. In addition, a disc or hard copy may be obtained from the District Office, 888.225.2111 or e-mail warren.paulson@michigandistrict.org.

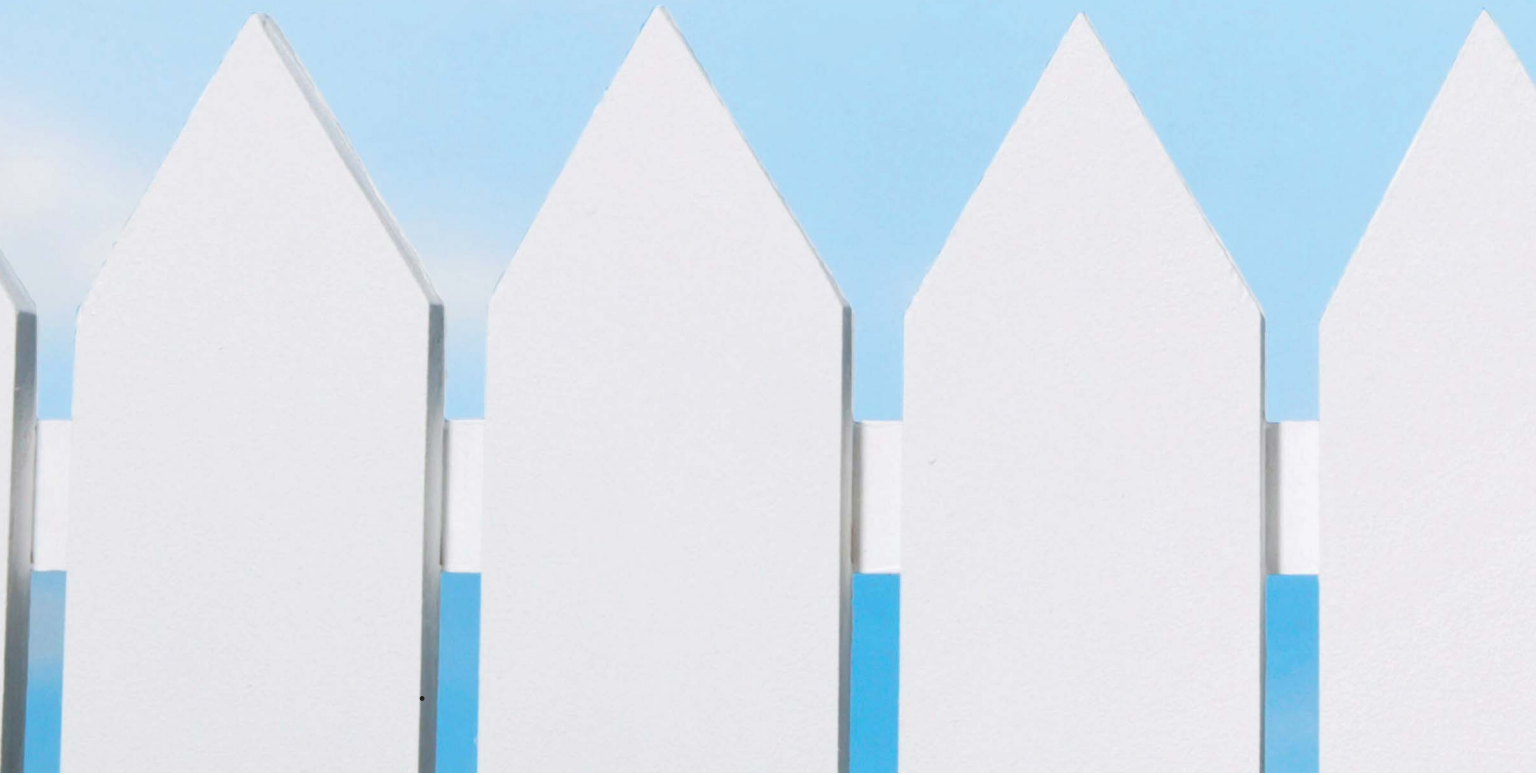

Pathways to Promise is an interfaith technical assistance and resource center, which offers liturgical and educational materials, program models, and networking information to promote a caring ministry with people with mental illness and their families. These resources are used by people at all

levels of faith group structures from local congregations to regional and national staff.
